Social Economy Disruption

- Health bulletin

- Generally huge drop in revenues (Q2). Temporary cessation for numerous activities (certainly those with direct contacts), many at risk of complete closure (Q3-Q4) due to limited financial reserves.
- Social Finance sector has instruments to support. Still limited time-frame
- Huge mobilisation of crowdfunding, philanthropy, donations and volunteerism.
- Reports of limited or no access to support measures due to legal status (temporary unemployment, liquidity schemes)

- **Social Services**

- Higher demand aid and care
- Reach out to target groups even more difficult
- Partial / fully closed
- Lack of PPE

- **Work Integration Social Enterprises**

- Partial / fully closed → revenue drops
- In some MS not eligible for support measures
- Lack of PPE
- Manufacturing, retail, catering, circular, services, ...
- Many converted production to PPE

- **Social Enterprises & cooperatives in retail, tourism, food, creative industries and catering.**

- Also in SE these sector were hit very hard.

- **Agriculture**

- local sales of organic, ecologic farmers, short chain sales boosted trough cooperative local markets, delivery and farms shops.

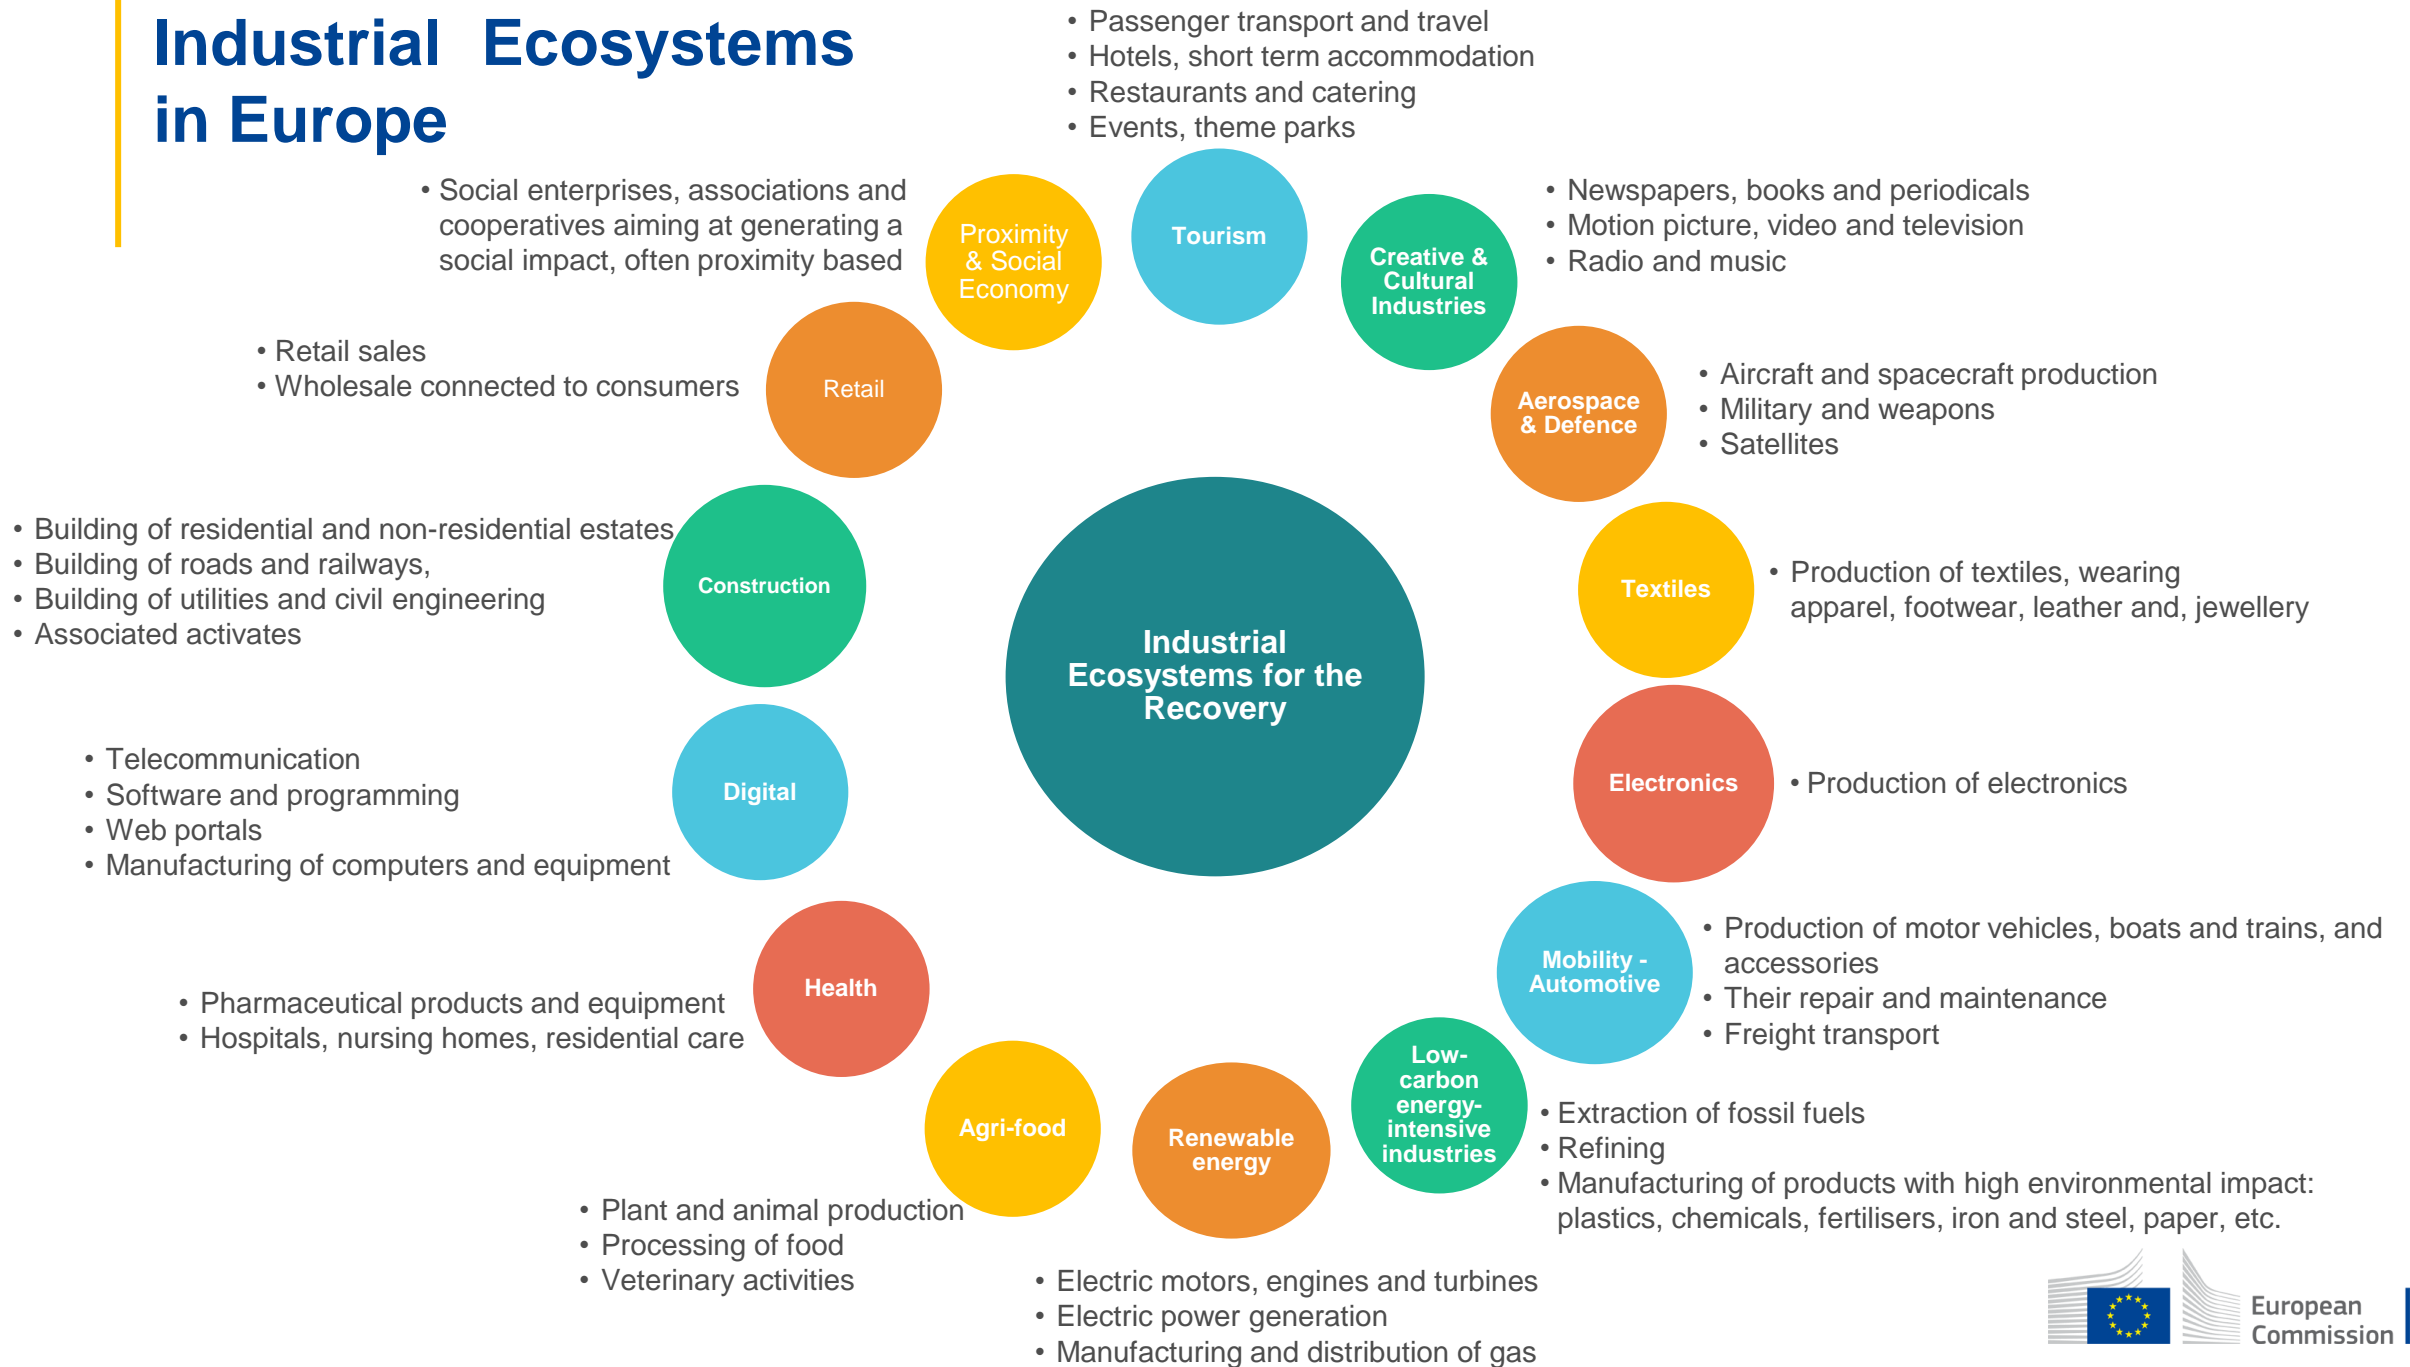

- **Digital social services & enterprises, platforms and commons**

- Digital innovators are active to help SE with a digital presence: e-commerce, platforms, e-communication and services.
- Developing COVID19 related tools: monitoring, mapping, distancing, health reporting,...

- **Fixing disrupted value chains:**

- Basic Goods / Services
- (eco)delivery, local mobility services, production, services,
- PPE production
